## PROJECTS / OPEN-SOURCE

---

### Netflix clone | [Link](#)

*HTML, CSS, JavaScript*

Netflix Clone: Developed a fully functional Netflix clone web application mimicking the core features and user interface of the popular streaming platform. Implemented a responsive design approach to ensure optimal viewing experiences across a range of devices - HTML, CSS, JavaScript.

### PG Life

*HTML, CSS, JavaScript, Bootstrap, PHP*

Developed a comprehensive web application, PG Life, aimed at simplifying the search for PG or hostels, for college students. The platform features user-friendly interfaces for listing properties, filtering searches based on various criteria. Utilized Web D technologies to ensure a responsive and effective user experience.

Features:

- Advanced search filters for location, price range and amenities.
- Interactive property listing and detailed descriptions and images.

## CERTIFICATIONS

---
